Volume 27 General Index

AABAKKEN, L. *See* OSNES, M, ROSSELAND, A R *et al.*
Abdominal pain and chronic constipation, terminal digestive tract in, physiological study of, **1018**
—— tuberculosis (*Letters*), **990, 991**
ABOUZEKRY, L. *See* READ, N W, and ABOUZEKRY, L
ABRAHAMSSON, H. *See* LYRENÄS, E, and ABRAHAMSSON, H
——. *See* SJÖVALL, H, ABRAHAMSSON, H, *et al.*
Acetaldehyde metabolism, impairment in non-alcoholic liver disorders, **756**
Acetaminophen, effect on gastric mucosal injury caused by ibuprofen, **440**
Achalasia, balloon dilator (Rigiflex) for treatment of, **986**
Acid perfusion of duodenal ulcer craters and ulcer pain, study of, **942**
ACTH-stimulated and basal steroidogenesis, dose related *in vitro* effects of ranitidine and cimetidine, **1143**
ADAM, R D. *See* DE CAESTECKER, J S, BLACKWELL, J N, *et al.*
ADAMS, R F. *See* MURRAY, K E, ADAMS, R F, *et al.*
Adenomatous polyps of large bowel and cholecystectomy, **1181**
Adenosine deaminase activity in diagnosis of tuberculous peritonitis, **1049**
β-Adrenergic influence on oesophageal peristalsis, **260**
Adrenocorticotrophic hormone. *See* ACTH
AINLEY, C C, CLARKE, D G, TIMOTHY, A R, and THOMPSON, R P H: *Strongyloides stercoralis* hyperinfection associated with cimetidine in an immunosuppressed patient: diagnosis by endoscopic biopsy (*Case report*), **337**
——, FORGACS, I C, KEELING, P W N, and THOMPSON, R P H: Outpatient endoscopic survey of smoking and peptic ulcer, **648**
AL-AGHBAR, M N A, ALEXANDER, G J M, NOURI-ARIA, K T, NEUBERGER, J M, EDDLESTON, A L W F, and WILLIAMS, R: *In vitro* effect of Cyclosporin A on immunoglobulin production and concanavalin A induced suppression in primary biliary cirrhosis, **317**
Alcohol, absolute, endoscopic sclerotherapy using (*Letters*), **350, 1517**
——, blood concentrations, reduction by dietary lipid, mechanism of, **15**
Alcoholic and other liver diseases, Mallory bodies and disorganisation of intermediate filament structure in, **765**
—— cirrhosis, severe, intravenous midazolam in, pharmacokinetics and pharmacodynamics of, **190**
—— pancreatitis, development of, diet and drinking habits in relation to (*Letters*), **590**
ALEXANDER, G J M. *See* AL-AGHBAR, M N A, ALEXANDER, G J M, *et al.*
Alexander-Williams, John, President, British Society of Gastroenterology, 1986/7, **1106**
ALGARD, M. *See* LARREY, D, RUEFF, B, *et al.*
ALI, E M. *See* HOMEIDA, M M A, DANESHMEND, T K, *et al.*
ALI, M H. *See* JOHNSTON, B J, REED, P I, *et al.*
AL-JANABI, M N. *See* READ, N W, AL-JANABI, M N, *et al.*
ALLAN, R: Dietary treatment of Crohn's disease (*Letter*), **350**
ALLEN, A. *See* PEARSON, J P, WARD, R, *et al.*
ALLES, W. *See* SANDLE, G I, WILLS, N K, *et al.*
AL MARDINI, H. *See* MATTHEWSON, K, AL MARDINI, H, *et al.*
Alpha chain disease, gastric form of (*Case report*), **719**
Amines, free, in faeces of infants with gastroenteritis and healthy infants, studies of, **1173**
5-Aminosalicylic acid and whole gut irrigation in treatment of endotoxaemia in active Crohn's disease, **814**
Ampulla of Vater, accessory pancreatic duct and *pancreas divisum*, discovery of, historical perspective (*Progress report*), **203**
—— —— ——, region of, tumours and pseudotumours of, endoscopic, clinical and pathological study, **1186**
Anaemia, pernicious, and mucosal endocrine cell proliferation of non-antral stomach, **789**
Anal sphincter, internal, effects of serotonin, *in vivo* manometric study in rats, **49**
—— sphincters, function after chronic radiation injury, **528**
Analgesic drugs, narcotic (tramadol, pentazocine, and buprenorphine), effect on bile duct sphincter, **567**
ANAND, B S. *See* SARIN, S K, SACHDEV, G, *et al.*
ANCONA, E. *See* ZANINOTTO, G, DALLA LIBERA, L, *et al.*
ANDERSON, M F: Transcutaneous Doppler ultrasound measurement of blood flow (*Letter*), **991**
ANKER-HANSEN, O. *See* HALLERBÄCK, B, ANKER-HANSEN, O, *et al.*
Anorexia nervosa, primary (*Leading article*), **1115**
—— ——, ——, oesophageal and gastric motility disorders in patients categorised as having, **1120**
ANTI, M. *See* D'AMATO, M, POMPILI, M, *et al.*
Antibodies, monoclonal. *See* Monoclonal antibodies
Antibody, lymphocytotoxic. *See* Lymphocytotoxic antibody
——, monoclonal. *See* Monoclonal antibody
—— production to hepatitis B surface antigen, enhancement by anti-idiotypic antibody, **1069**
—— responses, systemic and local, to gastric *Campylobacter pyloridis* in non-ulcer dyspepsia, **642**
Anticolon antibodies in serum in ulcerative colitis and primary sclerosing cholangitis, **86**
Anticomplement receptor activity in serum in primary biliary cirrhosis, **324**
Antidepressants, tricyclic, cross hepatotoxicity between (*Case report*), **726**
Antigen, carcinoembryonic. *See* Carcinoembryonic antigen
——, hepatitis B surface, antibody production to, enhancement by anti-idiotypic antibody, **1069**
——, protein (ovalbumin), fed, intestinal and systemic immune responses to, modulation in mice, **829**
Antigens, HLA-A and -B, in inflammatory bowel disease, **934**
Anti-idiotypic antibody, enhancement of antibody production to hepatitis B surface antigen by, **1069**
Anti-inflammatory drugs, non-steroidal, and peptic ulcer, **929**
—— ——, ——, —— —— —— perforation (*Letters*), **114**
—— ——, ——, and prostaglandins, effect on permeability of human small intestine, **1292**
—— ——, ——, risks, benefits and problems in assessment (*Leading article*), **1287**
Antimicrobial therapy, effects on faecal bulking, **55**
ANTINORI, S. *See* CAREDDA, F, ANTINORI, S. *et al.*
Antisecretory agents, gastric, comparison of effects in healthy volunteers and patients with duodenal ulcer, **1058**
—— ——. *See also* Lidamidine hydrochloride and SMS 201–995
Antrum and duodenum, endoscopic biopsies of, campylobacter like organisms in, relationship to inflammation, **1132**
——, gastrin and somatostatin release in duodenal ulcer and in controls, **652**
Appendix and colon, mucosa of, normal, differences in distribution of immunoglobulin producing cells between, **667**
——, dermoid cyst arising from (*Case report*), **334**
ARBAB, B M O. *See* HOMEIDA, M M A, DANESHMEND, T K, *et al.*
ARCHIBALD, M. *See* MURRAY, W R, LAFERLA, G, *et al.*
Arginine, plasma level in gastrointestinal cancer, effect of surgical treatment, **844**
ÄRLEBÄCK, A. *See* ROLNY, P, ÄRLEBÄCK, A, *et al.*
Ascites, cirrhotic, restricted or unrestricted salt diet in treatment of, randomised study of, **705**
Aspirin and taurocholate, gastric mucosal damage in rat induced by, effect of cimetidine and omeprazole (*Letters*), **589**
——, gastric prostaglandin formation and microbleeding in man treated with, effect of sucralfate, controlled study, **1449**
ATKINSON, M. *See* SMART, H L, MAYBERRY, J F, *et al.*
——. *See* SMART, H L, NICHOLSON, D A, *et al.*
ATMAKURI, S P. *See* BHARGAVA, D K, ATMAKURI, S P, *et al.*
Auranofin, diarrhoea induced by, investigation of, **59**
AWAD, J. *See* SACHS, J A, AWAD, J, *et al.*
AXELSSON, I. *See* JAKOBSSON, I, LINDBERG, T, *et al.*
AXON, A T R. *See* HAMILTON, I, O'CONNOR, H J, *et al.*
Azodisal sodium and sulphasalazine, effect on ileostomy output of fluid and PGE_2 and $PGF_{2\alpha}$ in subjects with permanent ileostomy, **1306**

Bacteria, colonic, continuous culture of, effect of clindamycin on ability to ferment carbohydrate, **411**

——, methanogenic, incidence in sigmoidoscopy population and association with diverticulosis, **698**

BAIER, B. *See* SIMANOWSKI, U A, SEITZ, H K, *et al.*

BAIN, C. *See* LLAMAS, K J, TORLACH, L G, *et al.*

BALDONI, F. *See* GULLO, L, PRIORI, P, *et al.*

Balloon dilator (Rigiflex) for treatment of achalasia, **986**

BANCEWICZ, J. *See* MUGHAL, M M, MARPLES, M, *et al.*

BANKS, L. *See* HADJIS, N S, CARR, D, *et al.*

BARBATIS, C, MORTON, J, WOODS, J C, BURNS, J, BRADLEY, J, and MCGEE, J O'D: Disorganisation of intermediate filament structure in alcoholic and other liver diseases, **765**

BARBER, D C. *See* READ, N W, AL-JANABI, M N, *et al.*

BARCLAY, G R, and TURNBERG, L A: Influence of sham feeding on salt and water absorption in the human jejunum, **1147**

Barium enema, use of, audit on, **182**

BARKER, H M. *See* TAYLOR, R H, BARKER, H M, *et al.*

BARNES, P R H, LENNARD-JONES, J E, HAWLEY, P R, and TODD, I P: Hirschsprung's disease and idiopathic megacolon in adults and adolescents, **534**

BARON, J H, BARR, J, BATTEN, J, SIDEBOTHAM, R, and SPENCER, J: Acid, pepsin, and mucus secretion in patients with gastric and duodenal ulcer before and after colloidal bismuth subcitrate (De-Nol), **486**

——. *See also* MAN, W K, THOMPSON, J N, *et al.*

BARR, J. *See* BARON, J H, BARR, J, *et al.*

Barrett's oesophagus, histological and histochemical changes in, **1062**

BARTELSMAN, J F W M. *See* VELDHUYZEN VAN ZANTEN, S J O, BARTELSMAN, J F W M, *et al.*

BARTLETT, K. *See* MATTHEWSON, K, AL MARDINI, H, *et al.*

BASS, C: Life events and gastrointestinal symptoms (*Leading article*), **123**

BASSENDINE, M F, WOODHOUSE, K W, BENNETT, M, and JAMES, O F W: Dextropropoxyphene induced hepatotoxicity mimicking biliary tract disease (*Case reports*), **444**

BATRA, S K. *See* SARIN, S K, SACHDEV, G, *et al.*

BATTEN, J. *See* BARON, J H, BARR, J, *et al.*

BATTEN, J C. *See* STEAD, R J, MULLER, D P R, *et al.*

——. *See* ZENTLER-MUNRO, P L, FINE, D R, *et al.*

BAUER, F E. *See* BISHOP, A E, POLAK, J M, *et al.*

BECKLY, D E, and CASEBOW, M P: Prediction of rebleeding from peptic ulcer experience with an endoscopic Doppler device, **96**

BEGER, H G. *See* BLOCK, S, MAIER, W, *et al.*

BEGLINGER, C. *See* WHITEHOUSE, I, BEGLINGER, C. *et al.*

BEHRENS, R, DEVEREAUX, M, HAZLEMAN, B, SZAZ, K, CALVIN, J, and NEALE, G: Investigation of Auranofin-induced diarrhoea, **59**

BENEDIKTSSON, B. *See* JAKOBSSON, I, LINDBERG, T, *et al.*

BENHAMOU, J P. *See* LARREY, D, RUEFF, B, *et al.*

BENNER, F. *See* WELLMANN, W, FINK, P C, *et al.*

BENNET, J D: Use of α-tocopherylquinone in the treatment of ulcerative colitis (*Personal experience*), **695**

BENNETT, J R. *See* COX, J, BUCKTON, G K, *et al.*

BENNETT, M. *See* BASSENDINE, M F, WOODHOUSE, K W, *et al.*

BENYON, J S E. *See* VERSCHOOR, J S C, and BENYON, J S E

BERGMANN, H. *See* STACHER, G, KISS, A, *et al.*

BERRY, H. *See* PALMER, K R, BERRY, H, *et al.*

Beta adrenergic. *See* β-Adrenergic

BHARGAVA, D K, ATMAKURI, S P, and SHARMA, M P: Endoscopic sclerotherapy using absolute alcohol (*Letter*), **1517**

BHATHAL, P S. *See* WHITEHEAD, R H, YOUNG, G P, *et al.*

BIEMOND, I, BURNHAM, W R, D'AMARO, J, and LANGMAN, M J S: HLA-A and -B antigens in inflammatory bowel disease, **934**

Bile acid and bile lipid metabolism after complete gall stone dissolution, and 'post-stone gall stone disease', **559**

—— —— kinetics and biliary cholesterol saturation, effects of pharmacological dose of cholecystokinin, **355**

—— —— pool, depletion of, artificial, effects on cholesterol saturation index and gall bladder storage function in healthy volunteers, **771**

—— —— precipitation and lipid solubilisation, intrajejunal, after ileal resection, effect of cimetidine and taurine, **66**

—— —— secretion in cystic fibrosis, evidence for defect unrelated to fat malabsorption, **1043**

—— cholesterol saturation, colonic transit and deoxycholic acid as inter-related factors, **550**

—— —— —— in liver cirrhosis, effect of small doses of deoxycholic acid, **23**

—— composition, gastrointestinal transit and deoxycholic acid metabolism, effects of concentrated wheat fibre preparation (Testa Triticum Tricum, Trifyba), **893**

—— duct calculi, intraductal mono-octanoin for direct dissolution of, experience in 343 patients, **196**

—— —— sphincter, effect of narcotic analgesic drugs (tramadol, pentazocine, and buprenorphine), **567**

—— flow, hepatic, and gall bladder concentrating function in cat, influence of pregnancy, oophorectomy and contraceptive steroids, **10**

——, gall bladder, cholesterol and calcium bilirubinate nucleation *in vitro* in, effect of binding of ionised calcium, **1382**

—— salt metabolism and biliary lipid composition, effects of fibre components (pectin, cellulose, and lignin), **29**

Biliary cirrhosis, primary, anticomplement receptor activity in serum in, **324**

—— ——, ——, immunoglobulin production and concanavalin A induced suppression in, *in vitro* effect of cyclosporin A, **317**

—— ——, ——, in men, **1373**

—— dyskinesia, suspected, paradoxical response of sphincter of Oddi to intravenous injection of cholecystokinin or ceruletide, manometric findings and results of treatment in, **1506**

—— lipid composition and bile salt metabolism, effects of fibre components (pectin, cellulose, and lignin), **29**

—— tract disease, dextropropoxyphene induced hepatotoxicity mimicking (*Case reports*), **444**

BILIOTTI, D. *See* TORSOLI, A, CORAZZIARI, E, *et al.*

BILLINGS, J. *See* DEAKIN, M, RAMAGE, J K, *et al.*

Billroth-II resection, previous, endoscopic retrograde cholangiography and endoscopic papillotomy in patients with, **1193**

BINDER, H J. *See* SANDLE, G I, HAYSLETT, J P, *et al.*

——. *See* SANDLE, G I, WILLS, N K, *et al.*

BIRD, C. C. *See* FOZARD, J B J, QUIRKE, P, *et al.*

BIRNIE, G G. *See* KENYON, C J, FRASER, R, *et al.*

——. *See* MACGILCHRIST, A J, BIRNIE, G G, *et al.*

BISHOP, A E, POLAK, J M, BAUER, F E, CHRISTOFIDES, N D, CARLEI, F, and BLOOM, S R: Occurrence and distribution of a newly discovered peptide, galanin, in the mammalian enteric nervous system, **849**

——. *See also* PIETROLETTI, R, BISHOP, A E, *et al.*

Bismuth, colloidal. *See* Tripotassium dicitrato bismuthate

BITTNER, R. *See* BLOCK, S, MAIER, W, *et al.*

BJARNASON, I, WILLIAMS, P, SMETHURST, P, PETERS, T J, and LEVI, A J: Effect of non-steroidal anti-inflammatory drugs and prostaglandins on the permeability of the human small intestine, **1292**

BJERKE, K, BRANDTZAEG, P, and ROGNUM, T O: Distribution of immunoglobulin producing cells is different in normal human appendix and colon mucosa, **667**

BLACKWELL, J N. *See* DE CAESTECKER, J S, BLACKWELL, J N, *et al.*

Bladder, smooth muscle dysfunction in irritable bowel syndrome, **1014**

BLAKE, J R. *See* COTTON, M H, and BLAKE, J R

BLANKENSTEIN, M VAN. *See* GELDOF, H, SCHEE, E J VAN DER, *et al.*

Bleeding gastric ulcers, late outcome in 152 patients, **926**

——. *See also* Haemorrhage; Microbleeding

BLENKHARN, I. *See* HADJIS, N S, CARR, D, *et al.*

BLOCK, S, MAIER, W, BITTNER, R, BÜCHLER, M, MALFERTHEINER, P, and BEGER, H G: Identification of pancreas necrosis in severe acute pancreatitis: imaging procedures *versus* clinical staging, **1035**

Blood alcohol concentrations, reduction by dietary lipid, mechanism of, **15**

—— flow and perfusion in acute haemorrhagic pancreatitis in dog, **958**

—— ——, superior mesenteric artery, transcutaneous Doppler ultrasound measurement of, **100**; (*Letters*), **991**

—— volume, circulating, reduction of, small intestinal fluid and electrolyte transport in man during, **913**

BLOOM, S R. *See* BISHOP, A E, POLAK, J M, *et al.*

——. *See* DAWSON, J, BRYANT, M G, *et al.*

BLUMGART, L H. *See* HADJIS, N S, CARR, D, *et al.*

——. *See* STUDLEY, J G N, MATHIE, R T, *et al.*

Body composition in ileostomy patients with and without ileal resection, **680**

BOLTON, R P, and CULSHAW, M A: Faecal metronidazole concentrations during oral and intravenous therapy for antibiotic associated colitis due to *Clostridium difficile*, **1169**

Bombesin, opposite effects on insulin and gastrin response to food in humans, **499**; *Errata*, **1402**

BONAMICO, M. *See* PIETROLETTI, R, BISHOP, A E, *et al.*

BONNIERE, P, WALLAERT, B, CORTOT, A, MARCHANDISE, X, RIOU, Y, TONNEL, A B, COLOMBEL, J F, VOISIN, C, and PARIS, J C: Latent pulmonary involvement in Crohn's disease: biological, functional, bronchoalveolar lavage and scintigraphic studies, **919**

Abstracts Index

Abdominal pain, acute, computer aided diagnosis by non-qualified medical staff, **A1259**
—— ——, functional, treatment by transcutaneous nerve stimulation, **A625**
Abscesses and pseudocysts, pancreatic, after acute pancreatitis, report from multicentre study, **A229**
Acetaldehyde, liver membranes altered by, stimulation of neutrophils in rat by, **A615**
——, penicillamine and cysteine protection of hepatocyte membranes from, **A1250**
Achalasia, vagal function in, **A599**
Acid, effect on bicarbonate secretion by stomach in man, evidence for autoregulatory reflex in, **A592**
——, pain in duodenal ulcer induced by, pathogenesis of, **A1254**
—— suppression and healing in duodenal ulcer, **A611**
Adenocarcinoma, gastric, diagnosis of, difficulties in routine practice, **A1263**
——, rectal, DNA aneuploidy in, prognostic significance of, **A599**
Adenocarcinomas, colorectal, histological estimation of DNA ploidy in, **A1268**
Adenoma-carcinoma sequence, colonic, oncogene expression in, **A616**
Adenomas, colorectal, development of, role for endogenous androgen in?, **A1267**
Adenomatous polyps, colonic, incidence in necropsy series, compared with colonoscopic findings, **A1256**
ADIB-BAGHERI, S: Oesophageal ulcers associated with deoxycycline therapy, **A1269**
AINLEY, C C, *et al.*: Studies with alcohol in the baboon, **A1248**
——, *et al.*: Transit time in ulcerative proctitis, **A631**
Alcohol studies in baboon, **A1248**
Alcoholic and non-alcoholic liver disease, sexual dysfunction and sex hormone changes in, controlled study, **A1265**
—— hepatitis, acute, hepatocyte injury in, new mechanism of, **A1250**
—— liver disease, abnormal prostaglandin E_2 and leukotriene B_4 synthesis by peripheral blood monocytes in, **A623**
—— —— ——, hypogonadism in, abnormal release of luteinizing hormone as factor in, **A623**
Aldosterone, effects on Na and K transport properties of colonic epithelium, **A605**
——, influence on development of colonic transport processes in infancy, **A1283**
ALEXANDRINO, P, *et al.*: Propranolol versus endoscopic sclerotherapy for prevention of recurrence of variceal bleeding, **A597**
Alginate raft, scintigraphic evaluation of, **A609**
Alkaline secretion, comparative rates throughout gastrointestinal tract, **A605**
—— ——, stimulation of, effect on duodenal epithelial permeability, **A604**
ALLEN-MERSH, T G, *et al.*: Does a fall in serum CEA after chemotherapy for disseminated colorectal cancer predict prolonged survival?, **A1258**
ALLISON, M C, *et al.*: Can rectal biopsy distinguish acute self-limiting colitis from early inflammatory bowel disease?, **A1276**
AL MARDINI, H, *et al.*: Effect of polymer coating on faecal recovery of ingested 5 amino salicylic acid in patients with ulcerative colitis, **A631**
ALSTEAD, E M, *et al.*: Autosomal recessive visceral myopathy, **A1258**
p-Aminosalicylic acid and bentiromide in assessment of pancreatic function, **A1260**
5-Aminosalicylic acid, ingested, in ulcerative colitis, effect of polymer coating on faecal recovery, **A631**
Ammonia production, gastric, by *Campylobacter pyloridis*, **A1237**
Ampulla of Vater, carcinoma of, prognosis in, **A228**
Anaemia, pernicious, 24 hour intragastric pH and plasma gastrin concentration in, **A611**
Anal sphincter, external, in neurogenic faecal incontinence, correlation of mean motor unit potential duration and latency of pudendo-anal reflex, **A625**
—— ——, inadequate, in idiopathic faecal incontinence, due to combined sensory impairment and muscle weakness, **A624**
—— ——, internal, ganglion cells in, **A1241**
Anastomotic strictures of colon, endoscopic balloon dilatation of, **A1241**
ANDREOLLO, N A, *et al.*: Responses of the oesophageal upper sphincter and body to graded distension, **A598**
ANDREWS, H A, *et al.*: Sexually transmitted disease—a new hazard for the gastroenterologist?, **A1256**
Androgen, endogenous, role in development of colorectal adenomas?, **A1267**
Angelchik prosthesis, national survey of, **A633**
Angina pectoris, oesophageal acid reflux as factor in, **A1242**
Angiodysplasia, colonic, localisation and aetiology of, **A619**
Angiosarcoma of liver, occupationally related, in UK, **A1284**
Anorectal myectomy for outlet obstruction, reason for therapeutic effect?, **A1259**
Antacids in prevention of duodenal ulcer relapse, **A612**
Antiandrogens, possible role in treatment of hepatocellular carcinoma, **A596**
Antibodies, *Campylobacter pyloridis* specific, *in vitro* production by gastric mucosal biopsies, **A607**
Antibodies (Antibody), monoclonal. *See* Monoclonal antibodies (antibody)
Antigen, carcinoembryonic. *See* Carcinoembryonic antigen
Antigens, class II, expression in coeliac jejunal mucosa, **A1273**
——, common, on lymphocytes and antiserum to *Yersinia enterocolitica* in ankylosing spondylitis and inflammatory bowel disease, **A593**
Anti-inflammatory drugs, non-steroidal, and peptic ulcer complications, **A609**
—— ——, ——, influence on faecal occult blood tests, **A1241**
—— ——,——, *See also* Indomethacin and flurbiprofen
Antral G-cell hyperfunction and Zollinger-Ellison syndrome, basal and postprandial serum gastrin levels in, effect of enprostil, **A1282**
—— gastritis and duodenitis, correlation between endoscopic and histological diagnosis of, **A634**
Antroduodenal motility and transpyloric fluid movement, effects of truncal vagotomy and pyloroplasty and highly selective vagotomy, **A1256**
APPLETON, G V N, *et al.*: Adaptation of the shortened gut: role of the distal small bowel, **A610**
——, *et al.*: Calcium has a protective role against the development of colorectal tumours, **A1267**

——, *et al.*: Tumour cell DNA content as an indication of early recurrence in colorectal cancer, **A1268**
ARMSTRONG, C P, *et al.*: Effect of phospholipase A_2 and lysolecithin on pancreatic duct integrity, **A230**
——, *et al.*: Peptic ulcer complications and non-steroidal anti-inflammatory drugs, **A609**
ARMSTRONG, D, *et al.*: Are bile acids gastrotoxic in duodenogastric reflux? Dose response and structure activity studies using an *ex vivo* rat gastric chamber model, **A1235**
Arterial vascularisation of oesophagus, **A1269**
Arthritis, rheumatoid. *See* Rheumatoid arthritis
5-ASA. *See* Mesalazine
Ascites caused by impaired hepatic inactivation of circulating endogenous opioid peptides?, **A1250**
Ascorbic acid, intragastric concentrations, relationship to plasma levels and gastric pH, **A634**
Aspiration cytology, endoscopic, of gastric lesions, **A1263**
Aspirin and sodium salicylate injury to gastric mucosa, different mechanisms for, **A1236**
ASTON, N O, *et al.*: Endoscopic balloon dilatation of colonic anastomotic strictures, **A1241**
Azathioprine and prednisolone, differing immunosuppressive

effects in maintenance of remission in autoimmune chronic active hepatitis, **A1239**
Azygos blood flow measurements, accuracy of, **A596**

Bacteria, faecal, metabolic activity of, effect of diet, **A625**
Bacteriuria in primary biliary cirrhosis, natural history of, **A596**
BALASUBRAMANIAM, K, *et al.*: Intragastric acid resistant lipase activity in pancreatic steatorrhoea: comparison with health and effect of a fungal lipase, **A231**
BALLANTYNE, K C, *et al.*: Detection of metastatic and recurrent colorectal cancer by immunoscintigraphy, **A 600**
——, *et al.*: Monoclonal antibody imaging of pancreatic cancer, **A1279**
BALLARD, H J, and **HIRST, B H**: Inherent trypsin resistance of small intestinal mucosa, **A605**
Balloon dilatation, endoscopic, of colonic anastomotic strictures, **A1241**
Balsalazide in maintenance therapy for ulcerative colitis, comparison with sulphasalazine, **A1271**
BANCEWICZ, J, *et al.*: Nissen fundoplication and the lower oesophageal sphincter, **A594**
BANERJEE, A K, *et al.*: Safer endoscopic retrograde pancreatography?, **A601**
BANNISTER, P, *et al.*: Hypogonadism in alcoholic liver disease: abnormal release of luteinizing hormone is a contributory factor, **A623**
——, *et al.*: Sexual dysfunction and sex hormone changes in liver disease: a controlled study of alcoholic *vs* non-alcoholic disease, **A1265**
BARDHAN, K D, *et al.*: Combined histamine H_2 and antimuscarinic receptor blockade in the treatment of refractory duodenal ulcer, **A606**
—— (presenting Multicentre Study): Can antacids prevent duodenal ulcer relapse?, **A612**
Barrett's oesophagus, pH profile and implications, **A1253**
BARTHOLOMEUSZ, F D L, *et al.*: Technetium-99 labelled leucocyte scanning in the assessment of inflammatory bowel disease, **A630**
BARTOLO, D C C, *et al.*: Rectal intussusception: the commonest abnormality in the descending perineum syndrome, **A624**
BASSENDINE, M F, *et al.*: Induction of remission in primary liver cell cancer with a new thymidylate synthase inhibitor, CB3717: a phase II study, **A1249**
BATES, T, and **HARRISON, M**: Do postcholecystectomy symptoms improve?, **A1279**
BAUER, F E, *et al.*: Pharmacokinetics of galanin in man and its effect on glucose homeostasis, **A606**
BAXTER, J N, *et al.*: Effects of a somatostatin analogue SMS 201–995 on endotoxaemia in the rat, **A1247**
BEHRENS, R, *et al.*: Diarrhoea and malnutrition in Gambian infants, **A628**
Bentiromide and p-aminosalicylic acid in assessment of pancreatic function, **A1260**
BEYNON, J, *et al.*: Assessment of local invasion in rectal carcinoma: a comparative study of endoluminal ultrasound and computed tomography, **A617**
——, *et al.*: Pararectal lymph node involvement in rectal cancer assessed by endoluminal ultrasound, **A1257**
Beta blocking drugs, passage of carbohydrate to colon accelerated by, **A629**
BIANCHI PORRO, G, *et al.*: Tripotassium dicitrato bismuthate versus two different dosages of cimetidine in the treatment of resistant duodenal ulcers, **A612**
Bicarbonate in oral rehydration solutions, UK trial in children with gastroenteritis, **A1274**
—— secretion by stomach in man, effect of acid, evidence for autoregulatory reflex in, **A592**
—— ——, duodenal, cholinergic modulation of, evidence for, **A1254**
Bile acid absorption, terminal ileal, after truncal vagotomy and cholecystectomy, **A1235**
—— —— (^{75}SeHCAT), first pass ileal clearance in man, **A614**
—— acids and gastrotoxicity in duodenogastric reflux, dose response and structure activity studies using *ex vivo* rat gastric chamber model, **A1235**
—— ——, *See also* Nor-dihydroxy bile acids
—— duct, common, calculi in, endoscopic removal of, review of 356 cases, **A1280**
—— ——, ——, —— ——, endoscopy versus surgery for, trial of, **A614**
—— ——, ——, —— ——, retained, ceruletide treatment for, efficacy of, **A1280**
—— ——, ——, exploration of, morbidity and mortality of, **A1281**
—— —— stricture, high, hepatotomy for, **A602**
——, gall bladder, relationships between bile acid, total, and ionised calcium concentrations in, role in Ca gall stones, **A1251**
—— salts, transport by enteric and non-enteric microorganisms and effect on growth, **A1270**
Biliary bypass, Dacron, efficacy of, appraisal in 31 patients, **A602**
—— causes of acute pancreatitis, identification of, value of endoscopic retrograde cholangiography in, **A228**
—— cholesterol absorption by gall bladder, **A1250**
—— cirrhosis, primary, aberrant expression of HLA-DR in salivary tissue in, **A598**
—— ——, ——, bacteriuria in, natural history of, **A596**
—— ——, ——, D-penicillamine-induced toxicity in, role of sulphoxidation status in, **A622**
—— ——, ——, prognosis of, factors affecting, **A622**
—— ——, ——, urban clustering of, **A1265**
—— lipid secretion, reduced, by nor-dihydroxy bile acids in rodents, **A1260**
—— obstruction, malignant, endoscopic biliary prosthesis in palliation of, trial of, **A1284**
—— prostheses, bacterial adhesion, biofilm formation and sludge deposition in, **A601**
—— ——, blockage of, mechanism of, scanning electron microscopy evidence, **A602**
—— ——, endoscopic, in 102 poor risk patients with carcinoma of pancreas, **A1278**
BILLINGS, P J, *et al.*: Subcutaneous oxygen tension in the prediction of severe acute pancreatitis, **A228**
BINGLE, C D, *et al.*: Neonatal and adult 64 copper kinetics in the pig and its relationship to copper kinetics in Wilson's disease, **A623**

——, *et al.*: Natural history of bacteriuria in primary biliary cirrhosis, **A596**

——, *et al.*: Natural history of bleeding in cirrhotics with varices and no previous bleeding, **A609**

——, *et al.*: Prospective randomised trial of chronic sclerotherapy to prevent variceal rebleeding using the same protocol to treat bleeding: interim analysis, **A1246**

——, *et al.*: Prospective randomised trial of endoscopic sclerotherapy versus oesophageal staple transection for acute variceal bleeding: single interim analysis, **A1266**

CA 19–9 and TPA, simultaneous assessment of, reliable index of pancreatic cancer?, **A232**

CA–50 radioimmunoassay in differential diagnosis of malignant and non-malignant conditions of pancreas, **A231**

Caecum, rat, luminal alkalinisation *in vitro* by, **A1262**

Caerulein and pancreatitis, differing dose response characteristics of caerulein to CCK8, **A1260**

Calcium, protective role against colorectal tumour development, **A1267**

——, relationships between bile acid, total, and ionised Ca concentrations in gall bladder bile, role in Ca gall stones, **A1251**

—— transport in duodenal vesicles, regulation by calmodulin antagonists, **A627**

Calculi in common bile duct, endoscopic removal of, review of 356 cases, **A1280**

—— —— —— —— ——, endoscopy versus surgery for, trial of, **A614**

—— —— —— —— ——, retained, ceruletide treatment for, efficacy of, **A1280**

Calmodulin antagonists, regulation of calcium transport in duodenal vesicles by, **A627**

CAMPBELL, F C, and CUSCHIERI, A: Critical rise in breath hydrogen in evaluation of intestinal transit, **A1270**

——, *et al.*: Relief of gas bloat syndrome by gastrointestinal stimulation, **A1264**

Campylobacter positive and negative gastric ulcers, different aetiology?, **A1282**

Campylobacter pyloridis and cimetidine, **A607**

—— ——, effect of cimetidine or tripotassium dicitrato bismuthate therapy, trial of, **A611**

—— ——, gastric ammonia production by, **A1237**

—— —— infection, gastric, diagnostic IgG ELISA using serum samples for, **A607**

—— ——, monoclonal antibodies to, preparation of, **A1238**

—— —— specific antibodies, *in vitro* production by gastric mucosal biopsies, **A607**

Campylobacter-like organisms and reflux gastritis, **A608**

—— ——, duodenal, presence of, relationship to duodenal ulcer healing, **A607**

—— ——, effect of duodenal ulcer surgery, and role of enterogastric reflux, **A1237**

—— ——, gastritis associated with, in patients with rheumatoid arthritis taking non-steroidal anti-inflammatory drugs, **A1237**

—— —— in 'non-ulcer' dyspepsia, **A1238**

CANFIELD, S P: Luminal alkalinisation by rat caecum *in vitro*, **A1262**

Carbohydrate passage to colon accelerated by beta blocking drugs, **A629**

—— salvage by colon, failure of, diarrhoea in ulcerative colitis related to?, **A1257**

Carcinoembryonic antigen, faecal, in large bowel cancer, **A599**

—— ——, serum concentration, fall after chemotherapy for disseminated colorectal cancer, predicts prolonged survival?, **A1258**

Carcinoid syndrome, diarrhoea blockade by serotonin antagonist (α5HT-M receptor) in, **A1243**

—— ——, hypertrophic gastropathy associated with prostaglandin E2 overproduction in, **A1263**

Carcinoma, colonic, low powered Nd YAG laser treatment of, **A600**

——, colorectal, colonic pH important in?, **A1257**

——, ——, disseminated, fall in serum CEA after chemotherapy for, predicts prolonged survival?, **A1258**

——, ——, early recurrence in, tumour cell DNA content as indication of, **A1268**

——, ——, early, rising detection rate of, **A617**

——, ——, erythrocyte stearic acid desaturation in, **A599**

——, ——, increased risk after gastric surgery, **A600**

——, ——, inoperable, endoscopic treatment with Nd YAG laser, **A618**

——, ——, metastatic and recurrent, detection by immunoscintigraphy, **A600**

——, ——, occult hepatic metastases in, **A617**

——, ——, pelvic/local recurrence of, and cytocidal washout, **A600**

——, ——, screening for, detection of faecal occult blood in, comparison of 3 day Haemoccult, 6 day Haemoccult and Fecatwin/Feca EIA tests for, **A1242**

——, hepatocellular, and oral contraceptive use, **A615**

——, ——, human lymphoblastoid interferon in, *in vitro* and *in vivo* studies, **A616**

——, ——, natural killer cell activity in, and *in vitro* and *in vivo* response to interferon, **A1265**

——, ——, primary, remission in, induction with thymidylate synthase inhibitor (CB3717), **A1249**

——, ——, treatment of, possible role for antiandrogens in, **A596**

——, gastric, after gastric surgery, risk of, factors influencing, **A633**

——, ——, intestinal type of, gastrin studies in, **A1262**

——, ——, natural history and prognostic factors in, **A592**

——, ——, pathogenesis of, genetic and dietary factors studied in high incidence family, **A1262**

——, ——, variations in tissue enzyme levels in relation to, **A633**

——, gastrointestinal, lymphokine activated killer cell production in, **A1257**
—— of ampulla, prognosis in, **A228**
—— of large bowel, faecal carcinoembryonic antigen in, **A599**
——, pancreatic, endoscopic biliary prostheses in 102 poor risk patients with, **A1278**
——, ——, monoclonal antibody imaging of, **A1279**
——, ——, simultaneous assessment of CA 19–9 and TPA reliable index of?, **A232**
——, rectal, abdominoperineal or stapled anterior resection for?, **A600**
——, ——, local invasion in, assessment by endoluminal ultrasound and computed tomography compared, **A617**
——, ——, pararectal lymph node involvement assessed by endoluminal ultrasound in, **A1257**
—— risk in ulcerative colitis, collaborative long term study, **A1284**
——, *See also* Malignancy
CARR-LOCKE, D L, *et al.*: Outcome of endoscopic sphincterotomy for papillary stenosis, **A1280**
——, *et al.*: Prospective trial of pre-operative endoscopic sphincterotomy, **A1280**
CASE, W G, *et al.*: Is the study of the transit of radionuclide labelled water through the oesophagus of value in the diagnosis of pathological gastro-oesophageal reflux?, **A598**
——, *et al.*: Pill or probe?: an assessment of ambulatory oesophageal pH monitoring systems, **A594**
CAYGILL, C P J, *et al.*: Factors influencing the risk of developing gastric cancer after gastric surgery, **A633**
——, *et al.*: Increased risk of colorectal cancer after gastric surgery, **A600**
CB3717, induction of remission in primary liver cell cancer with, **A1249**
Cell proliferation and aneuploidy in colonic polyps, **A617**
—— —— in patients at high risk of colorectal neoplasia, **A616**
Ceruletide treatment for retained common bile duct stones, efficacy of, **A1280**
CHACKO, A, and CUMMINGS, J H: Effect of diet on nitrogen losses from the small bowel, **A619**
CHESNER, I M, *et al.*: Assessment of pancreatic function using bentiromide and p-aminosalicylic acid, **A1260**
——, *et al.*: Occurrence of pain in peptic ulcer haemorrhage: relation to age and non-steroidal anti-inflammatory drugs, **A1281**
Chilli ingestion, effect on gastroduodenal mucosa, **A1272**
Cholangiocarcinoma, hilar, results of aggressive surgical approach to, **A1279**
Cholangiography, operative, selective policy for, prospective clinical study, **A602**
——, retrograde, endoscopic, value in identification of biliary causes of acute pancreatitis, **A228**
Cholangitis, sclerosing, primary, and ulcerative colitis, HLA phenotypes in, **A615**
Cholecystectomy, postoperative symptoms, prospect of improvement in?, **A1279**
——, screening for colorectal neoplasia after, value of, **A1268**
Cholecystokinin and cholinergic system, role in intestinal phase of gall bladder contraction, **A603**
—— antagonists. *See* CR1392
——, gall bladder contraction in response to, abolition by loperamide, **A621**
——, plasma responses to bombesin and food in pancreatic insufficiency, comparison of, **A1260**
—— receptor binding by human gall bladder myocyte membranes, **A1261**
—— release, marked increase produced by raw soya flour in man, **A1278**
——, trophic effects on guinea pig gall bladder *in vivo* and human gall bladder epithelial culture, **A1234**
Cholecystokinin 8, hyperstimulation pancreatitis induced by, and differing dose response characteristics of CCK8 and caerulein, **A1260**
Cholestatic liver disease in neonates with Niemann-Pick type C, **A623**
Cholesterol, biliary, absorption by gall bladder, **A1250**
Cholestyramine versus loperamide for postvagotomy diarrhoea, **A1283**
Cholinergic modulation of duodenal bicarbonate secretion, evidence for, **A1254**
—— system and cholecystokinin, role in intestinal phase of gall bladder contraction, **A603**
Chromosome changes caused by sulphasalazine in patients with inflammatory bowel disease, **A1271**
Chyme, contains true micellar phase? **A603**
Cimetidine and *Campylobacter pyloridis*, **A607**
—— and piernzepine, combined, in treatment of refractory duodenal ulcer, **A606**
——, duodenal ulcer not healed by, effect of vagotomy, **A606**
—— in 2 different dosages versus tripotassium dicitrato bismuthate for treatment of resistant duodenal ulcers, **A612**
—— or tripotassium dicitrato bismuthate therapy, effect on *Campylobacter pyloridis*, trial of, **A611**
——, poor pharmacological response to, overcome by higher dosing or combination with pirenzepine?, **A1239**
Cirrhosis, acute hepatic encephalopathy in, lactitol and lactulose in, trial of, **A1266**
—— and portal hypertension, reticuloendothelial system activity and hepatic haemodynamics in experimental model of, **A622**
——, biliary. *See* Biliary cirrhosis
——, upper gastrointestinal bleeding in patients with, hospital costs of, **A596**
——, variceal bleeding in, glypressin for, prospective evaluation of, **A1247**
——, —— —— in patients with no previous bleeding, natural history of, **A609**
Cisapride, action on chronic constipation of paraplegics, **A1241**
CLEMENTS, D, *et al.*: Comparison of two methods of estimating liver blood flow in patients with liver disease using indocyanine green, **A613**
——, *et al.*: Indocyanine green clearance falls in acute rejection after liver transplantation, **A616**
Clostridium difficile and ulcerative colitis, **A1272**
Coeliac disease, abnormal permeability (cellobiose/mannitol test) mirrors jejunal morphometric changes in, **A1252**
—— —— and Crohn's disease, mucosal permeability to sugars *in vitro* in, **A1269**
—— —— and malignancy, **A1274**
—— ——, cellular hypersensitivity in, to synthetic dodecapeptide sequence from A-gliadin resembling early protein of human adenovirus 12, **A1274**
—— ——, class II antigen expression in jejunal mucosa in, **A1273**
—— ——, HLA and intestinal permeability, structure and lymphocytes in relatives of patients with, **A619**
—— ——, treated, mucosal permeability to gliadin normal in, **A1273**
Colitis, self-limiting, acute, differentiation from early inflammatory bowel disease by rectal biopsy, **A1276**
——, ulcerative, adhesive *E coli* in, eradication by tobramycin, **A1257**
——, ——, and *Clostridium difficile*, **A1272**
——, ——, and Crohn's disease, impaired activation of neutrophil oxidative metabolism in, **A1245**
——, ——, and primary sclerosing cholangitis, HLA phenotypes in, **A615**
——, ——, cancer risk in, collaborative long term study, **A1284**
——, ——, colonic mucin subclass defect in, real or artefact?, **A1276**
——, ——, diarrhoea in, related to failure of colonic salvage of carbohydrate?, **A1257**
——, ——, dysplasia and neoplasia associated with, abnormal expression of c-myc oncogene product in, **A1285**
——, ——, dysplasia in, and DNA aneuploidy, **A610**

——, ——, effect of cigarette smoking on colonic mucus production as protection against, **A618**
——, ——, hydrophobic adhesion of *E coli* in, **A1262**
——, ——, impaired colonic Na$^+$ absorption in, cellular basis for, **A1252**
——, ——, ingested 5 amino salicylic acid in, effect of polymer coating on faecal recovery, **A631**
——, ——, maintenance therapy for, comparison of balsalazide and sulphasalazine in, **A1271**
——, ——, mucosal T lymphocytes and HLA-DR expression in, **A631, A1276**
——, ——, treatment by mucosal proctectomy with J-shaped ileal pouch formation, **A626**
COLLINS, J S A, *et al.*: Trends in perforated ulcer in Belfast 1967–1983, **A632**
COLOMBEL, J F, *et al.*: Immunological findings in jejunal secretion of patients with Crohn's disease, **A1246**
Colon, adenomatous polyps of, incidence in necropsy series, compared with colonoscopic findings, **A1256**
——, anastomotic strictures, endoscopic balloon dilatation of, **A1241**
——, carbohydrate salvage, failure of, diarrhoea in ulcerative colitis related to?, **A1257**
——, carcinoma of, low powered Nd YAG laser treatment of, **A600**
——, Crohn's disease of, endoscopic findings in, reproducibility of, multicentre study, **A629**
——, cytomegalovirus infection of, in inflammatory bowel disease, **A595**
——, disease of, colonoscopy as first investigation for, **A623**
——, epithelium, Na and K transport properties of, effects of aldosterone, **A605**
——, microclimate, mucus in, importance of, **A593**
——, motility, normal daily variation in, **A605**
——, mucin subclass defect in ulcerative colitis, real or artefact?, **A1276**
——, mucus production, effect of cigarette smoking as protection against ulcerative colitis, **A618**
——, passage of carbohydrate to, acceleration by beta blocking drugs, **A629**
——, permeability, abnormal, in inflammatory bowel disease shown by oral and rectal tests, **A1246**
——, pH, important in colorectal cancer?, **A1257**
——, polyp-adenocarcinoma sequence, plasminogen activator activity in, **A1267**
——, sodium absorption impairment in ulcerative colitis, cellular basis for, **A1252**
——, —— and potassium transport, acute stimulation by glucocorticoid hormone, mechanism of, **A593**
——, transport processes, development in infancy, influence of aldosterone, **A1283**
——, urinary diversion in, tumour formation after, **A601**
Colonic adenoma-carcinoma sequence, oncogene expression in, **A616**
—— angiodysplasia, localisation and aetiology of, **A619**
—— polyps, aneuploidy and cell proliferation in, **A617**
Colonoscopy as first investigation for colonic disease, **A623**
Colorectal adenocarcinomas, histological estimation of DNA ploidy in, **A1268**
—— adenomas, development of, role for endogenous androgen in?, **A1267**
—— carcinoma, colonic pH important in?, **A1257**
—— ——, disseminated, fall in serum CEA after chemotherapy for, predicts prolonged survival? **A1258**
—— ——, early recurrence in, tumour cell DNA content as indication of, **A1268**
—— ——, early, rising detection rate of, **A617**
—— ——, erythrocyte stearic acid desaturation in, **A599**
—— ——, increased risk after gastric surgery, **A600**
—— ——, inoperable, endoscopic treatment with Nd YAG laser, **A618**
—— ——, metastatic and recurrent, detection by immunoscintigraphy, **A600**
—— ——, occult hepatic metastases in, **A617**
—— ——, pelvic/local recurrence of, and cytocidal washout, **A600**
—— ——, screening for, detection of faecal occult blood in, comparison of 3 day Haemoccult, 6 day Haemoccult and Fecatwin/Feca EIA tests for, **A1242**
—— liver metastases, major hepatic resection for, **A615**
—— mucosa, epithelial cell proliferation kinetics in patients with polyps of large bowel, **A1266**
—— neoplasia, cell proliferation in patients at high risk of, **A616**
—— ——, postcholecystectomy screening for, value of, **A1267**
—— tumours, development of, protective role of calcium against, **A1267**
Computed tomography in assessment of local invasion in rectal carcinoma, comparison with endoluminal ultrasound, **A617**
Constipation, chronic, in paraplegics, action of Cisapride on, **A1241**
——, severe, not responding to increased dietary fibre or laxatives, defaecation disorder in, **A617**
Contraceptive pill, smoking and inflammatory bowel disease, RCGP Oral Contraception Study results, **A1276**
Contraceptives, oral, use of, and hepatocellular carcinoma, **A615**
COOPER, M J, and WILLIAMSON, R C N: Different techniques in operative pancreatography, **A228**
——, ——: Hepatotomy for high bile duct stricture, **A602**
——, *et al.*: Pylorus preserving proximal pancreatectomy, **A229**
COPE, G F, *et al.*: Does cigarette smoking protect against ulcerative colitis by affecting colonic mucus production?, **A618**
Copper binding protein, low molecular weight, in guinea pig liver, developmental changes in, **A1240**
——, neonatal and adult 64 Cu kinetics in pig and copper kinetics in Wilson's disease, **A623**

CRAMPTON, J R, *et al.*: Effect of acid on bicarbonate secretion by the stomach in man: evidence for an autoregulatory reflex, **A592**
——, *et al.*: Evidence for cholinergic modulation of duodenal bicarbonate secretion, **A1254**
——, *et al.*: Sucralfate produces a dose dependent increase in PGE$_2$ synthesis by mammalian gastric and duodenal mucosa, **A606**
CREAN, G P, *et al.*: Functional dyspepsia, **A1254**
CROBACH, L F S J, *et al.*: Effect of enprostil on basal and postprandial serum gastrin levels in patients with antral G-cell hyperfunction, Zollinger-Ellison syndrome and normal subjects, **A1282**
——, *et al.*: Effect of intermittent omeprazole therapy on basal and postprandial serum gastrin concentrations in duodenal ulcer patients, **A1239**
Crohn's disease activity and thrombocytosis, **A630**
—— —— and coeliac disease, mucosal permeability to sugars *in vitro* in, **A1269**
—— —— and luminal factors, effect on zinc transport in jejunal brush border vesicles, **A627**
—— —— and ulcerative colitis, impaired activation of neutrophil oxidative metabolism in, **A1245**
—— ——, cyclosporin-A treatment of 11 cases, **A1277**

—— ——, ileal, active, postheparin plasma diamine oxidase as non-invasive marker of, **A630**

—— ——, ileal resection for, early lesions after, prospective follow up, **A610**

—— —— in older patients, **A595**

—— ——, inactive or mildly active, unrefined carbohydrate, fibre rich diet in, multicentre trial, **A1278**

—— ——, incidence in Cardiff, continuing rise in, **A1275**

—— ——, jejunal secretion in, immunological findings in, **A1246**

—— ——, normal ileal mucosa in, detection of transport defects in, **A620**

—— —— of colon, endoscopic findings in, reproducibility of, multicentre study, **A629**

—— ——, prevalence of hypolactasia not increased in, **A631**

—— ——, role for retrovirus in?, **A1245**

Cryptosporidium as cause of gastroenteritis, **A628**

CUNHA FERRERIA, R, *et al.*: Glycine and glucose polymer in oral rehydration solution: efficacy in an animal model of secretory diarrhoea, **A1244**

CUNNINGHAM, D, *et al.*: Natural history and prognostic factors in gastric cancer, **A592**

Cyclosporin A, rat small bowel transplants treated with, histological changes in, **A1244**

—— —— treatment of Crohn's disease, 11 cases, **A1277**

Cysteine and penicillamine, protection of hepatocyte membranes from acetaldehyde by, **A1250**

Cystic fibrosis, maldigestion in, improved by combined ranitidine and Pancrease, **A612**

Cytochromes P448 induction by corn oil in Syrian golden hamsters, **A603**

Cytomegalovirus infection, colonic, in inflammatory bowel disease, **A595**

Dacron biliary bypass, efficacy of, appraisal in 31 patients, **A602**

——, gastric, proximal, assessment of, limitations of Vagorec electromotor test in, **A1238**
——, highly selective, effective for duodenal ulcers resistant to H_2-blockers? **A1282**
——, —— ——, recurrent ulceration after, insulin test as predictor of, comparison with BAO and PAO measurements, **A1283**
——, —— ——, significant decrease in duodenogastric reflux after, **A610**
——, truncal, and cholecystectomy, terminal ileal bile acid absorption after, **A1235**
——, ——, and drainage, early rapid gastric emptying after, SMS 201–995 inhibition of, **A1272**
——, ——, and pyloroplasty and highly selective vagotomy, effects on antroduodenal motility and transpyloric fluid movement, **A1256**
——, ——, role in glucose malabsorption after gastric surgery, **A628**
Variceal haemorrhage, active, injection sclerotherapy for, trial of, **A1246**
—— ——, acute, endoscopic sclerotherapy versus oesophageal staple transection for, trial of, **A1266**
—— ——, ——, glypressin in management of, trial of, **A1247**
—— ——, early mortality from, Pugh's criteria for, multiple logistic analysis and comparison with other modified Child's classifications, **A1266**
—— ——, in cirrhosis, glypressin for, prospective evaluation of, **A1247**
—— —— —— —— with no previous bleeding, natural history of, **A609**
—— ——, prevention of recurrence of, oral propranolol versus endoscopic sclerotherapy for, **A597**
—— rebleeding, chronic sclerotherapy in prevention of, trial using same protocol to treat bleeding, **A1246**
Varices, eradication by chronic sclerotherapy, assessment of oesophageal function with scintiscanning after, **A1251**
——, implications of venous drainage of normal gastro-oesophageal junction for, **A1247**
——, oesophageal, patency during maintenance sclerotherapy, trial to assess, **A1251**
VARMA, J S, and SMITH, A N: Correlation of latency of the pudendo-anal reflex and mean motor unit potential duration of the external anal sphincter in neurogenic faecal incontinence, **A625**
Vater's ampulla, carcinoma of, prognosis in, **A228**
VELLACOTT, K D: Early endoscopy for lower gastrointestinal haemorrhage, **A618**
——, and MORTENSEN, N J McC: Rising detection rate of early colorectal cancer, **A617**
VENABLES, C W, *et al.*: Impact of histamine H_2 receptor antagonists upon admissions for peptic ulceration within the Northern region (1971–84), **A1281**
Venous drainage of normal gastro-oesophageal junction, implications for varices, **A1247**
VERSPAGET, H W, *et al.*: Changes in plasminogen activator activity in inflammatory bowel disease, **A630**
——, *et al.*: Impaired activation of the neutrophil oxidative metabolism in Crohn's disease and ulcerative colitis, **A1245**
VIANNA, A, *et al.*: Venous drainage of the normal gastro-oesophageal junction: a route to understanding varices, **A1247**
Visceral myopathy, recessive, autosomal, **A1258**
Visual evoked potentials and gamma aminobutyric acid-like activity in acute and chronic liver disease, **A622**
Vitamin and mineral depletion, home parenteral nutrition followed by?, **A626**

WALKER, S J, *et al.*: Does the position of the probe affect the results of oesophageal pH monitoring, **A1243**
WALSH, J P, *et al.*: Famotidine, a new H_2 receptor antagonist, restores levels of cytoprotective prostaglandin E_2 in the peripheral blood of patients with peptic ulcer disease, **A1283**
WALT, R P, *et al.*: Double blind clinical trial comparing night time enprostil with ranitidine in duodenal ulcer, **A608**
WARD, D C, *et al.*: Duodenogastric reflux decreases significantly after highly selective vagotomy, **A610**
WATSON, A J M, *et al.*: Glucose transport by rat heterotopic small bowel transplants, **A620**
——, *et al.*: Histological changes in rat small bowel transplants treated with Cyclosporin A, **A1244**
WATSON, R G P, *et al.*: Frequency of gastrointestinal endocrine tumours in Northern Ireland, **A620**

WESTABY, D, *et al.*: Injection sclerotherapy for active variceal bleeding: a controlled trial, **A1246**
Wheat bran. *See* Bran, wheat
WHEATLEY, K E, *et al.*: Incidence of colonic adenomatous polyps in a necropsy series, compared with colonoscopic findings, **A1256**
——, *et al.*: Post-trial surveillance of mortality in bleeding peptic ulcer disease, **A1263**
White cells. *See* Leucocytes
WILKES, J M, *et al.*: Duodenal epithelial permeability in relation to stimulation of alkaline secretion, **A604**
WILLIAMS, A J K, and BARRY, R E: Acetaldehyde altered liver membranes stimulate neutrophils in the rat, **A615**
—— ——: A new mechanism of hepatocyte injury in acute alcoholic hepatitis, **A1250**
—— ——: Penicillamine and cysteine protect hepatocyte membranes from acetaldehyde, **A1250**
WILSON, C, and IMRIE, C W: Analysis of deaths from acute pancreatitis: disturbing findings, **A230**
WILSON, J A, *et al.*: Gastric secretion in night shift workers: when does the stomach sleep?, **A634**
——, *et al.*: Globus sensation and reflux—a study with ambulatory pH monitoring, **A1242**
Wilson's disease, copper kinetrics in, and neonatal and adult 64 Cu kinetics in pig, **A623**
WOMACK, N R, *et al.*: An investigation of the cause of solitary rectal ulcers, **A624**
——, *et al.*: Role of impaired puborectalis recruitment in the descending perineum syndrome, **A618**
——, *et al.*: Sensory impairment and muscle weakness combine to cause an inadequate anal sphincter in idiopathic faecal incontinence, **A624**
WYATT, J, *et al.*: *Campylobacter pyloridis* and cimetidine, **A607**
WYKE, R J, *et al.*: Employment prospects and problems in patients with inflammatory bowel disease, **A595**

YOSHIOKA, K, *et al.*: What is the reason for the therapeutic effect of anorectal myectomy for outlet obstruction?, **A1259**

Zinc absorption, reduction by components of wheat bran, **A628**
—— transport in jejunal brush border vesicles, effect of luminal factors and Crohn's disease, **A627**
Zollinger–Ellison syndrome and antral G-cell hyperfunction, basal and postprandial serum gastrin levels in, effect of enprostil, **A1282**
